

IPF Statement: Corona Virus (COVID-19)

Friday, February 28, 2020 – Strassen, Luxembourg

Dear Member Federations,

As you are aware by now, a number of international conferences and sporting events across Asia and Europe have either been canceled or rescheduled amid the health and travel concerns, as authorities attempt to prevent the spread of Coronavirus. As such, there is a possibility that travel may be interrupted and/or canceled for future international or world championships.

The International Powerlifting Federation (IPF) takes no responsibility for any costs for either canceled or rescheduled events or travel that member federations may decide to attend. On a positive note, so far, we have decided not to cancel any of our championships. Business as usual.

Lastly, we're not advising anyone to change their plans. However, this is an evolving situation and want to be sure that you take the necessary precautions in advance.

Thank you.

The IPF Executive Committee
